In Memoriam

Stanley Zwirbla

And now let us remember our own departed brethren—our late classmate, Stanley Zwirbla, our departed brothers, sisters, friends, parents—perhaps the largest number of the latter in the history of Waltham High School—our departed teachers and benefactors.

We know that the life of these who have been faithful to the Lord, is but changed not ended; and that when their earthly dwelling place decayed an everlasting mansion stood prepared for them in heaven.

Let St. Michael, the standard bearer, bring them all into that holy light which thou of old promised to Abraham and his posterity. Lord, in praise of thee we offer prayer. Accept it for the good of these souls whom we call to mind this day.

Lord whom they looked at shrouded here below
Send them what they thirsted for so—
To gaze on thee face to face in holy light
And be blest forever with thy glory's sight.

Lord grant them eternal rest and let perpetual light shine upon them.

May their souls and the souls of all the faithful departed through the mercy of God rest in peace. Amen.

Ask Any Girl

The Class of 1965's Senior Play, *Ask Any Girl,* gave the ever-popular problems of the small town girl in the big city an interesting twist: "Motivation Research." The audience well remembers the many laughs of the evening—especially in the witty rivalry of Ada and Vince. The play, presented to a full house on November 24, 1964, was directed by Eddy May. Special thanks is given to Miss Kathleen Thornton, our faculty advisor.

Senior Prom

Mardi Gras

New Orleans could never have been more inviting than *Mardi Gras,* the Senior Prom of 1965. Sue Berrio and the entire prom committee worked magic in transforming the cafeteria into a veritable fairyland of color and costume. Our art committee presented us with what was whispered to be "the largest mural ever seen at WHS." Each girl received a charm and mask as mementos of the never-to-be-forgotten evening of May 28, 1965.

In Seasons Past

Beneath a canopy of fiery crimson, searing orange, and sapphire blue, the Class of 1965 viewed Waltham High School for the first time. Six hundred and sixty sophomores left the falling leaves and crisp air to unite as one class that would be unique in its achievements. The students entered feeling somewhat insecure as the high school's youngest and greenest members; yet each was ready to face the challenge of making the most of these three important years.

Talents which had previously remained hidden began to shine as brightly as the autumn leaves. First prize in the Debating Society's annual elocution contest went to sophomore William Alper for his oration, "Corruption in American Government." Janice Landry and Betty Scheinfeldt won in their respective fields of humorous interpretation and poetry reading.

Color spilled from the paint brushes of Sandra Mitchell and Peter Martocchio, who received gifts from the Waltham Rotary Club for their prize-winning designs for the Club's new banner. The Grover Cronin Department Store displayed the work of Marsha MacDonald in its Art Exhibit Preview. Design was also the key word for Ethel Cobb, Cathy Cardillo, and Marilyn Dronseiko, who were members of the W.H.S. team which competed in *Seventeen's* "Taste-Setter" table-setting contest.

Fred Ciaramaglia was honored by being chosen to participate in the Junior Science Symposium sponsored by M.I.T. In order to see and understand the problems of the South, twenty-five members of the First Congregationalist Youth Fellowship traveled to Bricks, North Carolina.

Now, with the changing autumn of our sophomore year behind us and the promising spring of senior year still three hundred and sixty five days away, junior year's winter loomed in the immediate future.

Indian summer lingered a while as the juniors of the cheering squad, Cindy Small, Judy Dozois, Student Council Treasurer, and Jane Tyman, Student Council Girls' Vice President, helped our basketball team fight its way to a tournament berth. As the air grew colder, two new programs at W.H.S., Distributive Education and the Humanities Lecture Series, reminded us that even the winter has its brighter times.

Many members of the Junior Class distinguished themselves during the year's activities. Maureen McHugh and Irene Restieri won the Kennedy Memorial Essay Contest. With host Bob Kennedy, William Alper participated in a WBZ radio debate entitled "Tomorrow's World." Susan Polson and Betty Scheinfeldt received first prizes in the annual Kingsbury Temperance Fund competition.

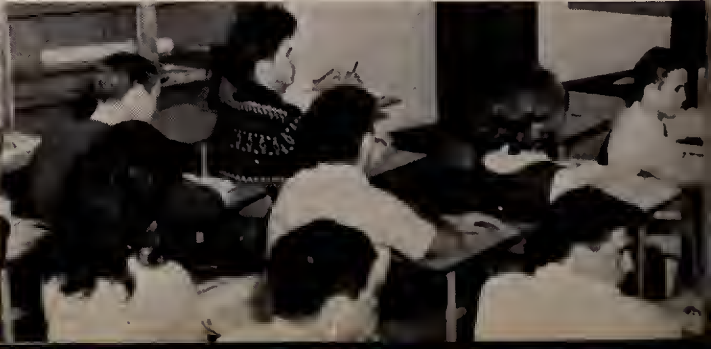
The harshness of what had promised to be one of the season's worst storms, mid-year examinations, was alleviated by the emergence of a new system of administering these tests. Students now came to school only when they had an exam scheduled.

In spite of the inclement weather, many juniors found time to work for "Operation Kindness" and received Civil Citations for their services. The season was made considerably happier when Deborah Butler and Joanne Fucci received scholarships at the School of the Museum of Fine Arts for a survey course.

Five juniors, Barbara Furne, Peter Hardy, Frank Grueter, Donald Lesuer, and Wendy Slater, ignored the elements and participated in the Student Government Exchange Program. The winter's harshness was forgotten for a while as our Junior Prom, "Wish Upon A Star," brought us into a world of gaiety and sunshine.

A sure sign of spring is baseball, and Coach Ray Yetten led our Waltham High team to the State Championship, defeating Somerville and four other teams in this area for the Eastern Massachusetts Championship and Chicopee, the Western Champion, for the Massachusetts title.

An early thaw made possible the Jaycee Road-e-o in which Joseph Castellana and Lloyd Ruggles won first prizes. Our Musical Festival, under the direction of Mr. Herbert Philpott, the choice of Irene Restieri as the W.H.S. delegate to Girls' State at Bridgewater State College, and the announcement of science study grants at Thayer Academy to George Swift and Brian Madden rounded out the long season.



History

As the last of our junior winter melted away, senior spring emerged with its vibrant colors and fresh ideas and achievements. Returning from their excursions abroad sponsored by Volkswagen were Betty Scheinfeldt and Bill Alper, while their counterparts, Heike Allerman and Franz-Josef Schingale, went back to their homeland, Germany. Andy Crane came home from his stay in Hawaii, under the auspices of the American Red Cross. We welcomed our American Field Service exchange student, Petter Steen, from Oslo, Norway.

This spring, certain young men's and women's fancies turned to sports. Urged on by Judy Dozois, Rosarie Vasile, and their cheerleaders, our football Captains Wally McGuire and Don Brophy, basketball Captain Bob Connors, and hockey Captain Bob MacCausland led their teams to victorious seasons. Other winning records were established through the leadership of Doug Morash on the indoor and outdoor track team, Drew Jackson on the cross country team, Rick Anderson and Don Lesuer on the swimming team, Jack Toohil on the rifle team, Bob Reardon on the golf team, Tom Gemelli and Ted Dangelmayer on the tennis team, and Bob MacCausland on the baseball team. Rick Anderson became state champion of the 100-yard backstroke, and Bill Judkins scored the highest number of baskets in the Suburban League and received the Good Sportsmanship Award of the Eastern Massachusetts Board of the International Association of Approved Officials. Barbara Corliss gracefully skated her way to fourth place in the American Rollerskating Championship.

Spring inspired academic brilliance as Ethan Kra, a first-place winner in the Brandeis Science Fair, was named one of the country's outstanding students by the Westinghouse Science Talent Search and state champion in the Massachusetts State Mathematics Fair. Fred Ciaramaglia, also a first-place winner, in the Brandeis Science Fair, won numerous mathematical contests and was a sincere supporter outside of school of the disadvantaged. Among other seniors who achieved prominence were the new National Honor Society officers, President Andy Crane, Vice-President Eddy May, Secretary Irene Restieri, and Treasurer Paul St. Amand. Barbara Phillips won the Betty Crocker Homemaker of Tomorrow Award, while Barbara Vigue and Alberto Velella, outstanding Business Department Students, participated in the John Hancock Honor Day Program. Bill Alper, Fred Ciaramaglia, Ethan Kra, and George Swift became National Merit Scholarship finalists.

Stimulated by spring's freshness, three of our class officers, President Bob Connors, Secretary Sharon Haskell, and Treasurer Rosarie Vasile, brought fame to our high school and city by assisting in the preparation of a teenage Youth Code.

In spite of the prevalence of spring fever, co-editors Mary Hansberry, Debby Rose, and Laila Salo made our Thursday nights a little brighter with the "This Week at Waltham High" column, while Terry Olivo and Brian Madden worked diligently on the 1965 *Mirror*. Under the direction of Eddy May, Student Council President, the Senior Play, "Ask Any Girl," and the Talent Show, "Manhattan Magic," were both successful productions. "Mardi Gras!", our Senior Prom, was the high point of the season's festivities, to be followed by the sad parting at Graduation.

From these, our seasons past, we now look forward to our future. It lies before us, clearly seen as on a summer's day, ready to be molded into a life's work. All we must do is reach for it.

That Was the Week That Was

JUNE 7, 1975

Good afternoon, you have just tuned in to Channel WHS. Bouncy Ames, Merry England, and myself, Jacky Frost, welcome you to "That Was the Week That Was", June 7, 1975. Now to get on to our news program, here are this week's headlines from the local area:

The notorious bomb scare mystery that has plagued Waltham High School for 10 years was finally solved last Friday by the internationally known spy, Diane Hargreaves. The culprit was none other than Brian Madden, the co-editor of the High School's yearbook, *The Mirror,* at the time the mystery occurred.

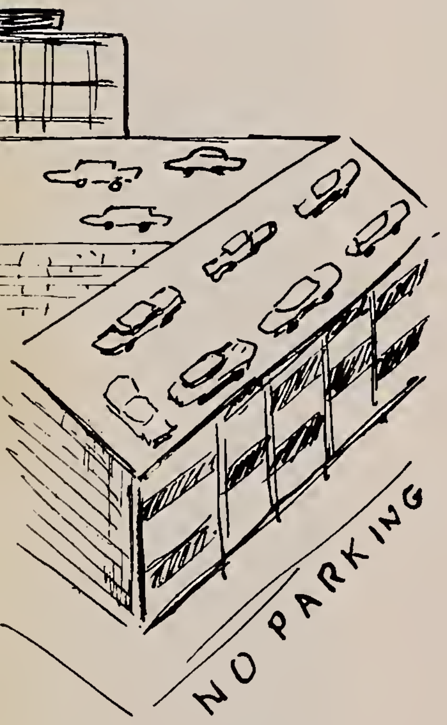
BANNED
MEMOIRS OF A SUBMASTERS SON

Another headline from Waltham High is the addition of three names to the faculty. Barbara Thomas, Superintendent of Schools, announced this week that Dr. Thomas Mullaney has accepted the position of school psychiatrist. She also disclosed that two of the Patriots' most successful players, Bob Connors and Rick Anderson, will return to Waltham in the Fall to coach the High School's football team.

Edward May's newest bestseller has just been banned in Waltham. Its title (for all interested students) is *Memoirs of a Submaster's Son.*

Albert Toy and Robert Calf have opened their "Car of the Future" plant on Route 128, which has just been renamed the Madden Freeway, in honor of the Safety Commissioner of Massachusetts, William Madden.

At a heated meeting of the Waltham City Council last night, two issues were strongly debated. The first discussion, which concerned the parking problem at the High School, reached an impasse. Construction specialists of the Student Service Committee, John Hammond, Carmen Juliano, and Robert LeBlanc, suggested the situation be alleviated by blocking off the roof of Waltham High School, thereby creating additional space. Mayor John "Tui" Toohill remained obstinate; he said there should be *no* parking allowed. School Committee members Judy Schiffbauer, Steve Picone, and Mary Dacey said yes, students *should* have parking privileges. No agreement was reached.



City Council members, Paul Crapo, Edward Donle, Marie Hines, Charlene Pierce, Bruce Yeamans, and Richard Yurkus, quickly decided upon the other issue; a new wing, the twenty-third, will be added to the present School Street, Main Street, Moody Street site. It will be constructed by contractors Joseph Rando and Aldo Agostino.

Other local news in brief:

Arthur Custoldi was named President of Waltham Electronics, Inc., a new development on the Madden Freeway.

Janice Giampietro, fashion buyer for Fougere-Fiorello-Forbes (formerly Grover Cronin's but since bought out by Mary, Eleanor, and Karen, respectively) will fly to Moscow to purchase a new selection of crimson sportswear. She will be accompanied by FFF's official bodyguards Richard Pagliazzo and Daniel Bradley.

That's all for the local news: now let's move on to the State Scene.

The big item in the news on the state level is the recent gubernatorial election. Don Brophy, whose whirlwind campaign was run by Carole Schaufus and Sharon Halloran, battled incumbent John Bonica, who was managed by Sharon Haskell and Ro Vasile. The candidates, however, paid more attention to their campaign managers than to their respective campaigns. And, as a result, the "dark horse" candidate, Marianne Manzon, is governor today.

Charles McCullough, President of the U.S. Banking System, donated one billion dollars to the Commonwealth of Massachusetts. As of next year, there will be no more state taxes.

The President of the University of Massachusetts, Ethan Kra, officially announced the university's future expansion plans. He is planning to purchase the western half of the state for the campus.

Bill Butman, head of the Massachusetts Health Department, and his staff of research bacteriologists, Pat Quinlan, Janice Murray, Leith MacArthur, Judy Goode, and Dorothy Elwell,

Armand Casale

Prophecy

have discovered a cure for the FTA disease infecting the state's teachers—most seriously Pat Foley, Kathy Herlihy, and the noted Bonnie team, Reasor and Brown, that is.

The Prudential Center has been the scene of many strange events, but this week's occurrences top its ten year history. A student demonstrator, Marsha MacDonald, and followers Jean Abramo and Bev Oliver staged a "We Hate Society" sit-in protest on the top floor. Meanwhile another group headed by Steve Bright, Ellen Fucci and Gerald Gorman held an antiprotest picket with "Society is the Greatest" signs. The two antagonistic groups remained for two days, shouting and singing their theme songs: that of Miss MacDonald's trio was "We Want Freedom" sung to the tune of "We Shall Overcome", and the opposing faction's chant was "We Love Society, Yea, Yea, Yea" harmonized to the tune of an old song first orginated by a once-popular English vocal band called the Beatles. Needless to say, confusion reigned.

Let's leave Massachusetts now and go on to our National Headlines:

At the press conference yesterday the President of the United States, Walter McGuire, announced that he has appointed Al "Robin Hood" Brooks as head of the new War on Affluence Program designed to accept from the rich and donate to the poor. Brook's committee, consisting of Greg Kann, Don Uhlin, and Joseph Nixon, has planned a dinner for the country's millionaires at the White House. It is said that the most invitees will arrive via taxi, as the dinner is free, but the donation at the door is a '75 automobile.

When questioned by newsmen as to the status of the war in Vietnam, President McGuire remarked that, as former administrators as far back as '65 have stated, we have a definite commitment there. Mary Hansberry, ace columnist for the New York Times, dryly replied that many have been committed because of this very commitment, but there were few laughs for such an old joke.

Asked to comment on philosopher Debby Rose and her new city built on a large glass-enclosed float which drifts through the earth's oceans, the President acknowledged that he had granted approval of the project. The city is simply called Ayn, and the people who live there are striving to achieve a perfect society. The city stops at Boston next week. New members are always welcome.

The President also announced that he had signed a mutual non-communication treaty with Drew Jackson, ambassador from Deary Island, the isolated retreat of the renowned artist Franny, who withdrew there to seek solitude for her work.

WMG (Walt McGuire) mentioned rather gleefully that the DAR (Daring, Adventurous Rascals) elected a new president this week. She is Judy Dozois, who won on a platform guaranteeing surfboards and skateboards for all.

News reporter Gerald Gorman referred somewhat sarcastically to this week's rocket launching. Under the scientist team of Mary Lea Mabie, David Hoffses, and Judy Griffin, the initial take-off seemed incredibly successful . . . until it was discovered that the chief researcher, Robert Reardon, was inadvertently locked inside. The President refused to comment.

The President was also reticent to speak about the Crimson Corps, a radical left-wing movement headed by Bobby Connors. Its purpose is to maintain students in high school all their lives. This program would naturally be government-sponsored. Mr. Connors's reason for such an organization is: "Well, the best part of your life is spent in high school, so why not extend this fun time to include your whole life?"

At this point the conference was broken up by the First Lady, the former Barbara Phillips, who beckoned to the President from the window. The Chief Executive wished the reporters good-bye and invited them to a skateboard match on the White House lawn after dinner. But this news will have to be continued next week, when today will be part of "that was the week that was."

Class Will

We, the Class of 1965, emerging from crowded conditions, with crammed heads and cramped bodies, do hereby leave, and bequeath to the administrators, faculty, and students of Waltham High School the following gifts:

To our honorable principal, Mr. Gallagher, a palatial suite of offices complete with furniture worthy of recognition in "Better Homes and Offices."

Mr. Van Arsdale, we provide the students and faculty of our Vocational School with a well-lighted, weather-proof tunnel for their daily treks to the cafeteria and gym.

We leave to Mr. May, five minutes daily for bomb scares and an unlisted WHS phone number.

Our talented Mr. T. Fitz is heir to an eraser—extra large—to erase the figures in his little black book.

Along with an Oscar for Best Director for *Ask Any Girl,* we leave Miss Thornton four extra sets of car keys. May she never be locked out again.

A "fairly unique" offering is our libation to the ever-powerful spirit of mathematical calculation, Miss Mary Lou Hogan: One Brian Madden; also, a permanent seat over the Waltham High basket and a little green hat for future parades.

We enroll the eminent Dr. Stetina as a lifelong member of the Waltham Teachers' Association.

We leave Mr. Tyner stranded between the ratchet release and the space bar.

The Class of 1965 bequeaths to Mr. Eames that biology field trip we never took.

After watching an amazingly successful three nights' run in "The U.S. and Us", we had no trouble in securing for Miss Paquette the title role in Warner Brothers' new movie, "Hello Dolly!"

We pass to coach Kopp a real live hawk, a can of Campbell's Creamed Tiger Soup, and many more winning seasons.

To Mr. Avery we leave a piece of chalk that is guaranteed to fall 32 feet per second per second, to make his physics experiments come out right.

For Mr. Richman, we have reserved a secret guarded parking space under the cafe and a more dynamic student council.

We fortify Mr. Hendry with a set of iron nerves for teaching students in our driver road classes.

We provide for Miss Hogarty a dozen dictation records that will appeal to girls and deal primarily with young men.

To help her get the atmosphere for future teachers' shows, we have chartered for Miss Tabor her own showboat and a year's supply of lemon drops, her latest sustenance.

For Silas Pippin, we are having a gargantuan piggy bank specially cast to hoard his pilfered milk money.

Mr. Krol, we honor you and Buddy with an engraved invitation to participate in the First Annual National Father and Son Golf Tournament.

We leave Miss Needham holding one extra large baggy filled with the following items: seventeen more copies of "Clash of Issues," an antidote to the "Green Notebook Disease", and an autographed picture of Walter Lippmann.

Our bequest to Miss Nolan is three transcripts, two envelopes, and one stamp.

The Emmy Award for the Best Classroom Performance goes to Mr. Hood for his portrayal of the three witches and the drunken porter in *Macbeth.*

For Miss Mooney, we have installed a miniature Big Ben to help her in timing dictation.

In spite of conflict of interest, we leave Miss Childs and her confederates ten shares of preferred stock in Wrigley's Chewing Gum Company.

A permanent secretary to lighten the dirty paper work no teacher should have to do is our gift to Mr. Richard Collins.

For her greater comfort, we leave Miss Betts a furry fire-place for her office.

Mrs. Peckham, the former Miss Telerico, we leave you a secret hide-away under Lake Avernus.

We bequeath to Mrs. Lamb a larger classroom and a compass for drawing circles, if by any chance her arm should go lame.

For colorful Mr. Klein, we have scheduled a classfull of students taking art because they really love it.

A book entitled "Learning How to Score Volleyball Correctly" is our offering to Mr. Woronicz, along with an extra pair of gym shorts.

Our esteemed co-librarian, Mrs. Wiley, will be the proud possessor of another "Wig", named Carole.

For Miss Balch, we are ordering a diamond-studded door-plate with her new name.

For the benefit of future teams, we present Mr. Prohovich with a perpetual Bill Judkins and a picture of Steve Gregg for his dart board.

We have pooled our green stamps, Miss McCullough, and have procured for your department a massive mimeograph machine.

Our contribution to Mrs. Hughes is an ever-full candy dish for her front desk.

To help Mrs. DeWolfe, we appoint a clerical supervisor to oversee the senior teachers' paper work.

Juniors and Sophomores, there is still hope—for a new school!

Finally, to Mr. B., our beloved housemaster, we leave another brilliant class who, we hope, will appreciate him as much as we do.

In witness thereto, we do place our hand and seal, and appoint as executors: Mrs. Shirley, Mr. Yetten, and Mr. O'Brien.

Given in Waltham on the seventh day of June, in the year one thousand, nine hundred, and sixty-five.

Bridges to Destiny

Those daring forged
A new path
Through wild and wonderful
Verdant foliage;
Through deep and dank
Textured forests;
Through sand-filled and savage
Desert expanse.
Those adventurous did build
A bridge of oak and faith
Among brothers striving
For that cause of freedom,
For the genesis of America.

Those ingenious covered
This bridge that spanned
Cities of Revere and the lanterns;
Cities of Jefferson and the Declaration;
Cities of Hancock and the Constitution;
Cities of power, growing and grasping
New industries of asphalt
Billowing puffs of the black smoke of
Energy. Those ingenious
Poured this liquid cover of
Protection over the bridge.
This bridge paved with power
Endured.

Those discovering will erect
A bridge of tomorrow:
Fibers of invention riveted
To filaments of improvement,
A chain of silver wired webs
Connecting the present to the
Future.
This bridge will connect the races
Of mankind with a new bond
Of understanding: this bridge will
Cement the peoples of the world
Into one glorious harmony of
Tomorrow.

We are those who
Stand now on a bridge
Of the mind and soul.
Let us be the steel cables
Crossing stretches of time,
Miracles of art and learning.
Let us be the dauntless concrete
Bridging streams of prejudice, rivers of
Hatred, oceans of war.
Let us be tentacles joining the
Blood of patriots to our quest
For freedom, for America, for tomorrow.

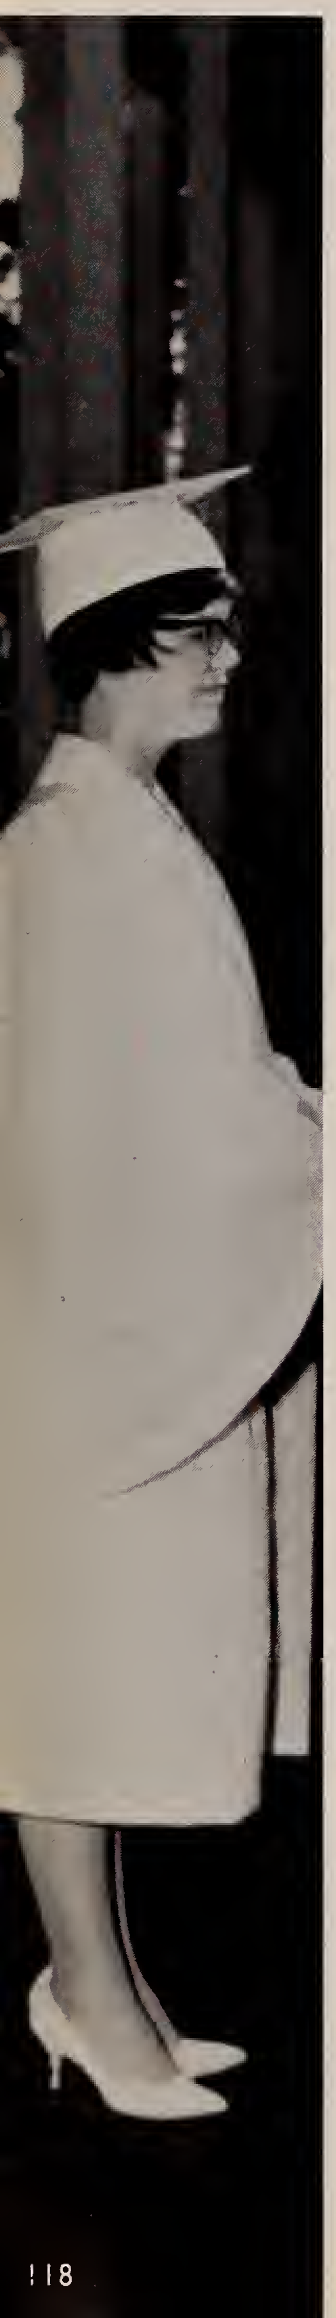
Graduation Speeches



"To those of us who are graduating, this is undoubtedly the most significant event of our lives; an event which represents the culmination of our secondary education and the beginning of a new phase of life. Many paths will be pursued by this graduating class: business, colleges, the trades and the armed forces. Each one of these fields is an important part of American life, and I'm confident that each path chosen will be taken with courage and a desire to excel."

—Robert Connors

"'I look forward to a great future for America.' This quotation, by President John F. Kennedy, is especially significant to those of us who are graduating tonight, for does not the future of America lie in its youth? And doesn't the future of this youth lie in education?

The growth and development of education is necessary for the growth and development of America."

—Fred Ciaramaglia

". . . then; just as we stoke the furnace of body in order to maintain the soul and mind, we must also stroke the maw of organization to maintain the American soul, that originality of thought and thought-product which makes us unique in a time-spanning world. Industry and statecraft are the means, not the end, and this is what we, the graduates of Waltham High School, future citizens of Massachusetts, America, the Western Hemisphere, and, potentially, the world, must never lose sight of."

—Susan Polson

"America gave to its settlers, and to its builders, a new outlook on life and the worthiness and the dignity of man. It is expressed in the Bill of Rights and in the many laws passed by the Congress, such as the Federal Civil Rights Laws and the antidiscrimination laws adopted by many states.

These concepts have also been broadened through interpretation by the Supreme Court of our United States, that has repeatedly, through its decisions, strengthened the rights of the individual in his contest with the state."

—Ethan Kra

"Personal distinction is attainable by man once he becomes a man. Distinction is not greatness, although a great man could achieve it. Distinction is not fame, although it might bring renown. Distinction falls just short of perfection but within the goals of everyone. Distinction is working at one's ability but always striving to be above one's ability. Distinction can be found on the path leading towards contentment."

Volkswagen

Betty Scheinfeldt, William Alper

After flying from New York, Betty Scheinfeldt and William Alper arrived for a two-month stay, courtesy of the Volkswagen Company's distributor, Hansen-Mac Phee. They had toured the World's Fair and now, began their new lives with new parents, brothers, sisters, and friends. While they were in Germany Franz-Josef Schingale and Heike Allerman took their places here in Waltham. During the summer their families took them traveling, Betty down the Rhine river and Bill to Austria and Bavaria. They visited Vienna, Innsbruck, Frankfurt, Cologne, Hamburg, Berlin, and many other famous places.

Franz-Josef Schingale, Heike Allerman

American Field Service

In August of 1964 he stepped off the "Seven Seas", the A.F.S. ocean liner. He was unknowingly beginning the most "wonderful, fantastic, fabulous, great" year of his life. On the 15th of August he arrived at his new home. His "family" the Meserves, greeted him warmly and welcomed him into their closely-knit life.

In September, he began school as a senior at Waltham High School. He made many friends with whom he shared many unforgettable experiences. On June 29 he left us, each and every one of us holding a memory. It was hard for him to leave and hard for us to let him go, but he carried with him the hope of one day returning to his"other home."

Red Cross

Andrew Crane

Last summer Andrew Crane represented the Waltham Chapter of the American Red Cross in Hawaii. While much of his time was spent "playing tourist," Andy devoted many hours to working in the islands' health facilities. Since the miniscule plantation clinic was short of help, Andy was worked as "a combination doctor, nurse, orderly, and scrub-boy." Waltham's Red Cross envoy also worked with retarded children and fitted in some work with enlisted men, part of another vital Red Cross service.

For relaxation, Andy went ethnic—he reports that he swam at Waikiki, rode the breakers on a surfboard, climbed coconut palms on a deserted isle and collected souvenirs for the mainland "malihinis."

Manhattan Magic

On April 1 and 2, 1965, was presented the most successful Talent Show ever staged at Waltham High, *Manhattan Magic*. Under the outstanding leadership of Mr. Timothy Fitzgerald, faculty advisor, and Eddy May, student director, our show led the spellbound audience on an exhilarating jaunt through New York City, and included acts ranging from a beat poet to a one-of-a-kind "specialty" number. A clever script lent the show its fast pace, and the superb orchestrations by a certain trumpeter provided an added sparkle. The show was a hit from beginning to end and added much to the A.F.S. treasury.

Acknowledgements

In making a publication such as the *1965 Mirror,* the amount of help and guidance given to the staff by their advisors can never be known. Lack of space and words prevent us from giving full thanks to our advisors, Mr. Irvin Duclos and Mr. Thomas Neylon.

We should like to thank also Mr. Paul Shea for his talented advice without which we would not have such a high caliber of art work.

Not mentioned previously, but fully responsible for a large section of the *Mirror,* are the artistic talents of Armand Casale and Steve Herrick and the photographic ability of Tim Reed.

We wish to acknowledge the assistance given to us by Mrs. Polson at the Governor Gore Estate.

For her many courtesies (and master sheets) we would like to thank Mrs. Hughes.

We would like to acknowledge the time and assistance given to us by our official photographer, Russo Studio.

A book of this proportion cannot be assembled without the aid and cooperation of the administration and faculty. We would like especially to thank our principal, Mr. Gallagher, our assistant principal, Mr. May, and our housemaster, Mr. Belliveau.

Before you accept that first job . . .

Look over your employer as carefully as he does you

What's the Company like anyway? Would I be proud to work there? Reputation for square dealing with employees? Pleasant surroundings?

Will I be working with others my own age? Are they friendly? Do they socialize after hours?

Will the boss be reasonable? Appreciate good, hard work, but won't explode if I make a mistake?

Will I make a decent week's pay? Have a chance for raises, advancement, more responsibility? How about fringe benefits?

Is the work challenging? I had what it takes to get through high school. Will they give me a chance to use my brains?

Note: Many young men and women in this area can answer "Yes" to these questions. They work for New England Telephone Company . . . New England's largest employer.

Why not talk with our employment interviewer soon . . . before you graduate? Ask your Guidance Counselor to tell you when and where to apply.

Betty;
I can't put

I've got to say. There
are so many things I could
say, but there wouldn't be enough
room. I'll just name a few things:
The times down the a & a alleys. Especially
that Thursday night! See the fun we've
had with all the guys. Remember the times
up the park, and Harry's barn??! I'll always
remember having so much fun in everything we ex-
perienced! Of course, you'll never forget Tom, Jack,
John, Freddie, Woodie and all the other guys. And
maybe someday you and I will be able to get
Gert her poodle!!!! I'll always remember the partie
and beach parties we went to. And the times we double
on a date!! God has been with us through all our
good and bad experiences; I'm sure you realize that!
May He always stay with you and be by your
side. I'll always be your best friend an
always the first one you may come to. I hope
you'll always be my friend. Maybe th
one special day may come when I'l
be your bridesmaid (oops, maid o
honor) and the same for yo
May you always
(next page)

have a
happy life
and find what
you've been searching
for!! There are so
many more things to say, there
I can't think of words to put
it down. I know you'll always be as
sweet as you are now and I know you'll
never change!! May God Bless you, Betty!!
